# ABOUT AQUANE EXPO, 2026

Aqua North East Expo 2026 is the first large-scale, execution-focused aquaculture platform dedicated exclusively to North East India.

More than an exhibition, **AquaNE** is a structured regional transformation initiative designed to convert the outcomes of Aqua North East Summit-2025 into measurable industry action.

## The Expo aligns with:

- Pradhan Mantri Matsya Sampada Yojana (PMMSY)
- Act East Policy
- Blue Economy Mission

**AquaNE** covers the entire aquaculture value chain – from pre-harvest to export.

This is not a one-time event. It is the launchpad of a 5-year transformation roadmap (2026–2030).

# WHY NORTH EAST INDIA ??

North East India holds immense aquaculture potential but remains structurally under-leveraged.

## Regional Strengths

- Abundant freshwater resources
- High fish consumption culture
- Favorable climate for freshwater fish and shrimp
- Active cooperative and FPO ecosystem
- Young and trainable workforce

## Structural Gaps

- 20–25% post-harvest losses
- Limited cold-chain and processing infrastructure
- Low adoption of modern aquaculture technologies
- Weak export exposure
- Fragmented supply chains

*AquaNE Expo 2026 is designed to bridge this exact gap.*

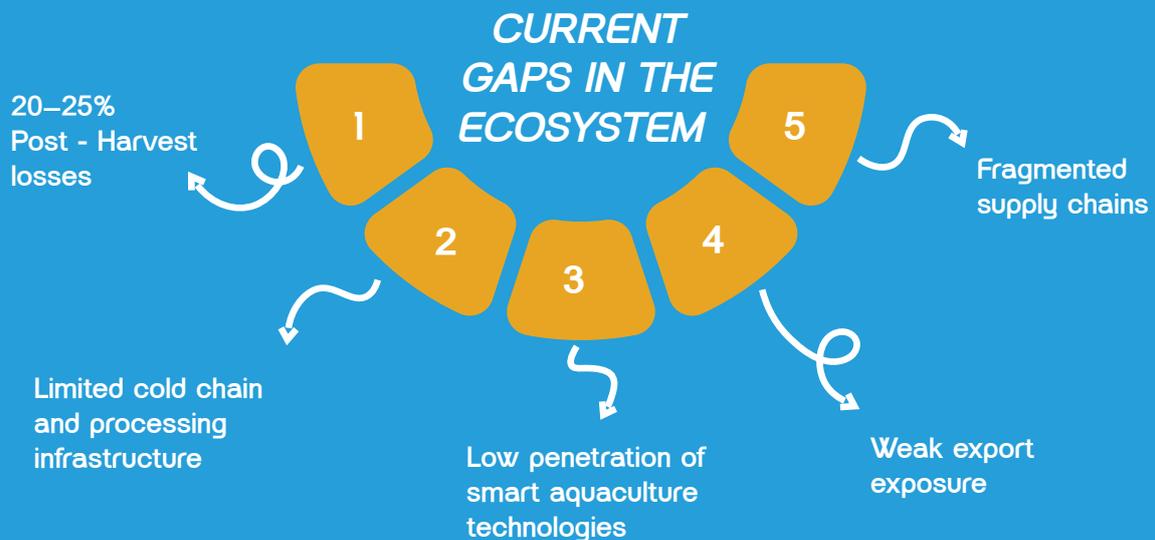

# THE BLUE ECONOMY OPPORTUNITY

## NORTH EAST INDIA'S AQUACULTURE GROWTH STORY :

North East India holds one of the strongest freshwater resource bases in the country. With high fish consumption, favorable climate, and strong rural participation, the region has the foundation to become a major contributor to India's Blue Economy.

AquaNE Expo 2026 positions the North East as a growth engine for aquaculture investment, technology adoption, value addition, and export expansion.

## BLUE ECONOMY HIGHLIGHTS :

AquaNE Expo integrates the full value chain from pre-harvest to export to strengthen North East India's position in India's Blue Economy framework.

# MANIRAM DEWAN TRADE CENTRE, GUWAHATI

*150+ Exhibition Stalls across structured value-chain halls.*

*AquaNE Expo is designed around the full aquaculture lifecycle:*

## SPACE BOOKING

The exhibiting spaces are limited and will be allocated on a first-come-first-serve basis. Exhibitors are encouraged to confirm participation early to secure preferred stall locations at Aqua North East Expo 2026.

### BUILT-UP STAND (SHELL SCHEME)

The standard shell scheme booth provides exhibitors with a ready-to-use exhibition space including essential furniture and lighting.

#### Stall Inclusions

- Octonorm stall structure (3m × 3m)
- Fascia board with company name
- 1 Information table
- 2 Banquet chairs with covers
- 3 Spotlights with wiring
- 1 Power socket (15 Amp)
- 1 Dustbin
- Carpet flooring

#### Pricing

₹7,500 per sqm / USD \$200

Taxes as applicable

Minimum Space Booking: 9 sqm

### BARE SPACE (RAW SPACE)

Bare space provides exhibitors the flexibility to design and construct customized exhibition booths according to their brand requirements.

#### Bare Space Includes

- Empty exhibition space
- venue lighting
- Venue security
- Access to common facilities

Booth construction, furniture, electrical fittings, graphics and flooring must be arranged separately by the exhibitor.

#### Pricing

₹7,000 per sqm / USD \$180

Taxes as applicable

Minimum Space Booking: 18 sqm

FOR SPACE BOOKING :

Mob No : 8977591115, 7075527682

## HALL 1 ( PRE-HARVEST & INPUT ZONE )

### Hatcheries & Seed Production

- Broodstock management
- SPF seed suppliers
- Genetic improvement programs
- Seed certification

### Water Quality & Pond Preparation

- Testing kits
- Treatment chemicals
- Pond liners
- Aeration systems

### Farm Infrastructure

- RAS systems
- Cage culture
- Pumps & blowers
- Pond construction

### Feed & Nutrition

- Aquafeed manufacturers
- Specialty diets
- Alternative proteins
- Feed formulation technology

### Health & Biosecurity

- Probiotics
- Disease diagnostics
- Veterinary services
- Aquatic medicines

## HALL 2 ( CULTURE & SMART AQUACULTURE ZONE )

### Smart Aquaculture Technology

- IoT monitoring
- AI analytics
- Automated feeders
- Farm dashboards

### Precision & Sustainable Farming

- Biofloc
- RAS
- Integrated fish farming
- Climate-resilient models

### Research & Academia

- ICAR institutions
- State fisheries & agricultural universities
- International research bodies

### Advisory & Farm Services

- Technical consultants
- Cluster development
- Skill training providers

### Finance & Institutional Support

- Banks & NBFCs
- Fisheries credit schemes
- Insurance companies
- NABARD linkages

## HALL 3 ( HARVEST, POST-HARVEST & MARKET ZONE )

### Harvesting Solutions

- Nets & tools
- Live fish transport
- Ice plants

### Logistics & Supply Chain

- Cold chain companies
- Last-mile fish delivery startups
- Freight & reefer vehicle providers
- Port & inland waterway logistics

### Post-Harvest & Cold Chain

- Cold storage
- Reefer transport
- Blast freezers
- Packaging

### Processing & Value Addition

- Filleting & grading machines
- Ready-to-eat seafood
- Branding solutions

### Retail & Domestic Market

- Seafood retail brands
- Supermarket chains
- D2C platforms

## D BLOCK ( EXPORT & PREMIUM ZONE )

### Export Houses

- MPEDA registered exporters
- International buyers

### Certification & Compliance

- HACCP consultants
- EU / US standards
- Quality control labs

### Government & Institutions

- State Fisheries Departments
- ICAR, CIFA, CIFRI
- MPEDA desks

### Strategic Sponsors

- Title & Industry Partners
- Global aquaculture brands

## CONFERENCE & KNOWLEDGE SESSIONS

AquaNE Expo 2026 brings together farmers, scientists, industry leaders, and policymakers on one platform.

### Farmer Sessions

- Disease management and survival rate improvement
- Feed efficiency and cost optimization
- Government schemes and credit access
- Practical farm-level problem solving

### Industry Panels

- Climate-resilient aquaculture models
- Indigenous species development
- Sustainable and integrated farming systems
- Research-to-field technology transfer

### Research & Science

- Market trends and demand outlook
- Processing and value addition opportunities
- Technology adoption in North East clusters
- Branding and domestic consumption growth

### Policy Dialogue

- PMMSY implementation roadmap
- State fisheries development plans
- Export facilitation and certification
- Institutional finance and insurance access

## THE REVERSE PITCH STAGE

Farmers take the stage to present real challenges.

Each farmer gets 5 minutes to explain key issues such as disease losses, high feed cost, low survival, or finance gaps.

Industry representatives respond live with practical solutions.

# DOMESTIC & INTERNATIONAL ORNAMENTAL SECTION

North East India has strong biodiversity and climatic advantages for ornamental fisheries. This section focuses on breeding, technology, retail growth, and export development in ornamental aquaculture.

## *Why Ornamental Fisheries?*

- High-value and low land requirement activity
- Suitable for youth, women-led enterprises, and SHGs
- Strong domestic aquarium and pet market demand
- Growing export potential
- Ideal for cluster-based entrepreneurship

## SECTION COVERAGE

### **Live Display Zone**

Indigenous North East species, commercial ornamental varieties, aquascaping demonstrations, nano aquarium models.

### **Breeding & Rearing Technology**

Tank systems, RAS models, filtration units, feed solutions, hatchery setups.

### **Equipment & Accessories**

Aquarium systems, lighting solutions, pumps, decorative materials, packaging and transport systems.

### **Health & Biosecurity**

Water quality management systems, disease control solutions, safe transport practices.

### **Domestic & Export Market Linkage**

Retail chains, aquarium distributors, export compliance guidance, international trade standards.

## ***Ornamental Competitions :***

Aquascaping excellence, indigenous species showcase, young entrepreneur recognition, student tank challenge.

## ***Knowledge Sessions***

Special conference track covering:

- Ornamental breeding techniques
- Indigenous species commercialization
- Export standards & compliance
- Entrepreneurship models for NE clusters

## ***Who Should Participate ?***

- Ornamental breeders
- Aquarium equipment companies
- Feed & water treatment suppliers
- Exporters & pet retail chains
- Startups & research institutions

The Ornamental Fisheries at AquaNE Expo 2026 aims to position North East India as a future-ready ornamental aquaculture hub within India's growing Blue Economy.

## WHO SHOULD EXHIBIT ?

- Feed manufacturers
- Hatchery operators
- Equipment suppliers
- Cold storage companies
- Processing machinery manufacturers
- Banks & insurance firms
- Government & research institutions
- Export houses
- Seafood retail brands

## WHO SHOULD ATTEND ?

- Farmers & progressive growers
- FPOs & cooperatives
- Startups & entrepreneurs
- Exporters & traders
- Policy makers
- Investors
- Students & researchers
- Input dealers

# WHY PARTICIPATE ?

### *For Exhibitors*

- First-mover advantage in NE India
- Direct access to emerging clusters
- Government visibility
- Dealer & distributor network expansion
- Structured B2B meetings

### *For Sponsors*

- Founding association with regional transformation
- 5-year long-term positioning
- Premium branding across event touchpoints
- Speaking opportunities
- Category exclusivity

# POST-EXPO CONTINUITY

AquaNE drives year-round engagement through:

Cluster-level follow-ups

Policy alignment with states

Trade facilitation & deal closure

Regional roadshows across NE

## Organiser

### Aqua Doctor Solutions

Aqua Doctor Solutions is the principal organizing body behind Aqua North East Expo 2026. With deep industry expertise in aquaculture advisory, farm management solutions, and sectoral development, Aqua Doctor Solutions works closely with farmers, input companies, institutions, and policy stakeholders to strengthen sustainable aquaculture practices across India. The organization focuses on improving farm productivity, biosecurity standards, value-chain integration, and technology adoption. Through AquaNE Expo 2026, Aqua Doctor Solutions aims to create a structured regional platform that connects policy, trade, technology, and grassroots aquaculture stakeholders under one roof. AquaNE Expo is designed as a long-term transformation initiative to accelerate aquaculture growth across North East India.

## Co-Organizer & Media Partner

### Fishery.News

Fishery.News serves as the Co-Organizer cum Official Media Partner for Aqua North East Expo 2026. As a dedicated digital media platform covering fisheries, aquaculture, seafood trade, and industry developments, Fishery.News connects wide range of professionals across India and international markets.

Through industry reporting, digital campaigns, expert interviews, and sector insights, Fishery.News strengthens knowledge exchange and market awareness within the aquaculture ecosystem.

As the official media partner of AquaNE Expo 2026, Fishery.News will drive national visibility, industry outreach, exhibitor promotion, and pre- and post-event coverage to ensure maximum engagement and impact.

## BE PART OF THE TRANSFORMATION

---

Aqua North East Expo 2026 is a structured, outcome-driven platform positioning North East India as a major player in India's blue economy.
